

Operational notice:

Firm Capacity:

From October 23, 2021 to October 31, 2021

1.343.061,87 Nm³/day

From November 01, 2021 in advance

171.428,44 Nm³/day

Firm Capacity under special circumstances** (i.e, in addition to the abovementioned Firm Capacity):

From November 01, 2021 to November 30, 2021

4.114.285,71 Nm³/day

**Special circumstances:

1) The extra Capacity will be allocated subject to preferential priority rights of other existing gas transportation contracts (SOPA) which have been entered into before this extra capacity is made available to new customers. The extra capacity shall be subject to interruption by Medgaz in case of operational or unforeseen events.

2) Not satisfied nomination will not be billed.

This information is subject to any changes that may occur in connection with the capacity and/or operation of the Medgaz infrastructure. This information shall be updated upon the occurrence of any such circumstances. Capacity requests will be dealt with in strict order of receipt of binding requests in a transparent, objective and non-discriminatory manner.

Medgaz is making an investment in a project to expand the current capacity of the system that, once completed, will increase the theoretical firm capacity of the gas pipeline from 8 to 10 bcm in 350 days. Performance tests will have to be carried out to find out the maximum capacity of the MEDGAZ system as well as the maximum input capacity into the Spanish grid.
