

Operational notice:

Available Daily Capacity Report

Firm Capacity:

From January 01, 2022 in advance

81.625,44 Nm³/day

Firm Capacity under special circumstances** (i.e, in addition to the abovementioned Firm Capacity):

January 01, 2022

4.114.285,71 Nm³/day

From January 02, 2022 to Expansion First Gas Date

1.266.466,56 Nm³/day

**Special circumstances:

1) The extra Capacity will be allocated subject to preferential priority rights of other existing gas transportation contracts (SOPA) which have been entered into before this extra capacity is made available to new customers. The extra capacity shall be subject to interruption by Medgaz in case of operational or unforeseen events.

2) Not satisfied nomination will not be billed.

This information is subject to any changes that may occur in connection with the capacity and/or operation of the Medgaz infrastructure. This information shall be updated upon the occurrence of any such circumstances. Capacity requests will be dealt with in strict order of receipt of binding requests in a transparent, objective and non-discriminatory manner.

Medgaz is making an investment in a project to expand the current capacity of the system that, once completed, will increase the theoretical firm capacity of the gas pipeline from 8 to 10 bcm in 350 days. Performance tests will have to be carried out to find out the maximum capacity of the MEDGAZ system as well as the maximum input capacity into the Spanish grid.
