

Operational notice:

On September 17, 2026, Medgaz will carry out its annual maintenance campaign. These operations are expected to last approximately five days, from September 17 at 18:00 CEST until September 22 at 18:00 CEST. During this period, gas transportation through the Medgaz pipeline will be fully interrupted to allow the scheduled maintenance work to be performed.

Consequently, Medgaz transportation capacity will be partially available on September 17 and September 22, and unavailable from September 18 through September 21. Shippers, shareholders, and other relevant third parties have been informed.
